

World Environment Day 2019

World Environment Day is the UN's most important day for encouraging worldwide awareness and action for the protection of our environment. Each World Environment Day is organized around a theme that focuses attention on a particularly pressing environmental concern. The theme for 2019 is Air Pollution.

CMLRE observed World Environment Day, 2019 on 10/6/2019 by planting trees in the CMLRE ATAL BHAVAN campus at Puthuvypin. The Ceremony was officially inaugurated by the Director, Dr. M. Sudhakar by planting the first sapling of Neem tree, as it is extremely beneficial to save the surroundings from air pollution. This was then followed by many of the scientists, staffs and project staffs. Director urged everyone to be responsible and aware about the environment. Though the campus is filled with water logging due to heavy rains, the programme was successfully conducted.

CMLRE also joined the observation of World Environment Day at Kendriya Bhavan Campus on 6th June 2019 by taking part in tree planting programme along with other different Departments.
